Full Stack Developer

Professional Summary

Full Stack Developer specializing in React/Next.js frontends and Django backends. Built enterprise localization platforms, reducing delivery time by 50% through efficient architecture. Proven ability to deliver scalable web applications with measurable business impact.

Languages: Arabic (Fluent), English (Excellent)

EXPERIENCE

Information Technology Institute (ITI) | Mansoura *June 2023 – August 2023*

Full-Stack Development (internship)

- Completed intensive full-stack training in **HTML**, **CSS**, **JavaScript**, **Bootstrap**, **SQL/PostgreSQL**, **Python**, and **Django**.
- Built **Library Management System** with authentication, role-based access control, and CRUD operations

Transfective | Dubai

Front-End Developer (Full-time, Remote) *July 2024 – January 2025*

- **Led frontend development for TransHub,** an enterprise localization platform automating workflows from project initiation to delivery, reducing delivery time by 50% and serving 1,000+ daily users
- **Developed Transfective HR**, an internal employee management system handling tasks, leave requests, interview processes, and personnel data using React, Next.js, and Tailwind CSS.
- **Architected responsive, mobile-optimized interfaces** across both platforms, improving user experience and workflow efficiency for 1,000+ daily users.
- **Collaborated with 5-person cross-functional team** to integrate RESTful APIs and deliver scalable, performant solutions achieving 95%+ client satisfaction.

EDUCATION

- **Faculty of Computers and Artificial Intelligence | Damietta University – Egypt | Graduated: June 2024**
- **GPA: 3.26 (**Ranked **16** in Computer Science Department out of **300)**

COURSES AND CERTIFICATES

- Full-Stack Web Development (Django) - Information Technology Institute (ITI) *July 2023 – September 2023*
- Meta Introduction to Back-End Development - Coursera *February 2024 – March 2024*
- Meta Django Web Framework - Coursera *March 2023 – April 2023*
- Meta APIs - Coursera. *August 2024 – September 2024*

STUDENT LIFE AND VOLUNTEERISM

ACPC Club: Participated in the university's ACPC problem-solving club and competed in the ACPC contest.

PROJECTS

PROVA 3D - Virtual Try-On Online Store:

Developed a full-stack E-commerce platform with an AR-based virtual try-on feature and sentiment analysis for product reviews. Integrated user authentication, cart management, product management and admin panel.

Technologies: Python, Django REST Framework, PostgreSQL, JWT tokens, React, scikit-learn, NLTK.

LMS - Library Management System:

Developed a full-stack web app with admin and student modules to manage books, users, and borrowing. Included authentication, role-based access, and an enhanced admin panel.

Technologies: HTML, CSS, JavaScript, bootstrap, python, PostgreSQL, Django.

COINAT - Authentic Coins Marketplace:

Developed a premium marketplace for coin collectors with advanced search, filtering, theme switching, and smooth animations.

Technologies: Next.js, React, Tailwind CSS, GSAP, Framer Motion, Shadcn/UI, Lucide Icons.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript, TypeScript, Python, SQL
- **Frontend:** ReactJS, Next.js, Tailwind CSS, Bootstrap, Shadcn/UI, Framer Motion, GSAP
- **Backend:** Django, Django REST Framework, JWT Authentication
- **Database:** PostgreSQL, MySQL, SQLite
- **Version Control & Deployment:** Git, GitHub, Vercel, Vite

- **API Development:** RESTful APIs, Axios, TanStack Query
- **Testing Tools:** Postman, Insomnia, Hoppscotch
- **UI/UX & Design:** Figma, Canva, Adobe Photoshop
- **additional Skills:** Adobe premiere, DaVinci resolve
