Frontend Developer

Professional Summary:

Front-End Developer with a strong foundation in modern web technologies including ReactJS, Next.js, and Tailwind CSS. Experienced in building scalable web applications, with additional knowledge in back-end development using Python, Django, and PostgreSQL. Passionate about creating user-centric, responsive interfaces.
Languages: Arabic (Fluent), English (Excellent)

EXPERIENCE

information technology institute | ITI, Mansoura. *June 2023 – august 2023*
Full-Stack Development Trainee

- Gained hands-on experience with **HTML**, **CSS**, **Bootstrap**, **JavaScript (OOP)**, **SQL/PostgreSQL**, and **Python/Django**.
- Developed a **Library Management System** as a full-stack project.

Transfective | Dubai
Front-End Developer (full-time remotely) *July 2024 – January 2025*

- Contributed to automating core company operations by developing a platform that streamlines the localization and translation workflow, from project initiation to delivery.
- Contributed to building key systems, including **TransHub - Localization & Translation Platform**, and **Transfective HR - Internal Employee Management System**, improving overall efficiency and user experience.
- Designed and maintained responsive, scalable user interfaces using **React**, **Next.js**, **Tailwind CSS**, and **Axios**.

EDUCATION

- **faculty of computers and artificial intelligence | Damietta University – Egypt**
- **GPA:** 3.26
- Ranked 16th in the Computer Science Department.

COURSES AND CETIFICATES

Full-stack web development 150 hours course using python (Django) at **ITI** Mansoura. *July 2023 – September 2023*
Introduction to Back-End Development course by Meta and offered through Coursera. *February 2024 – March 2024*
Meta's Django Web Framework course offered through Coursera. *March 2023 – April 2023*
Meta's APIs course offered through Coursera. *August 2024 – September 2024*

STUDENT LIFE AND VOLUNTEERISM

ACPC Club: Participated in the university's ACPC problem-solving club and competed in the ACPC contest.

PROJECTS

Nike E-Commerce Website Clone:
Developed a modern and responsive e-commerce website using ReactJS and Tailwind CSS. The project includes a dynamic hero section, interactive product cards, and optimized design for both desktop and mobile views.
Technologies: ReactJS, Tailwind CSS.

PROVA 3D:
A full-stack virtual fitting room web app that allows users to try on clothes and view sentiment analysis of product reviews.
API: for managing user profiles, products, shopping cart, and checkout processes. using Django REST Framework, PostgreSQL for data management, and JWT for secure user authentication and authorization, with integration of Django admin panel to manage products and orders.
Website: to display clothes and try them on and see if the reviews of these products are negative or positive by performing sentiment analysis.
Technologies: Python, Django REST Framework (DRF), PostgreSQL, JSON Web Tokens (JWT), React, scikit-learn, NLTK.

Library Management System:
Developed a fully functional web application using Django for the back end and HTML/CSS/Bootstrap for the front-end and seamlessly integrated a PostgreSQL database.
Technologies: HTML, CSS, JavaScript, bootstrap, python, PostgreSQL, Django.

Diabetes Classification website:

A machine learning project uses data preprocessing and models to predict diabetes likelihood, offering a valuable tool for early diagnosis and risk assessment in healthcare.
Technologies: Python, flask, Bootstrap, Machine Learning Libraries, scikit-learn.

SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, TypeScript, Python, SQL
- **Frameworks:** Django, Django REST framework, ReactJS, Next.js, Bootstrap, Tailwind CSS
- **Testing:** Postman, insomnia, Hoppscotch
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools:** Git/GitHub, Vite**,** JWT tokens, Axios, TanStackQuery
- **Developer Tools:** VS Code, Visual Studio, PyCharm
- **Designing Tools:** Figma, Canva, Adobe Photoshop, Adobe Premiere Pro
